# STATUS REPORT ON LEARNING MANAGEMENT SYSTEM

2017 APRIL TO 2021 APRIL

## Introduction

In the wake of expansion of internet usage and other distance technologies, Learning Management Systems are an inevitable technology in any Higher educational institutions. The LMS is a holistic, integrated platform and an end-to-end software solution for content creation, delivery and management of learning. Christ college adopted the opensource moodle platform as its LMS in April 2017 and it has become an irreplaceable part of teaching & learning now. A series of training was provided to faculty on moodle in the past four years. Presently all our 4412 students and 209 teachers are using the LMS christijkmoodle.

## Features

Major provisions integrated to our Moodle LMS are:

Examination module,

Activity completion,

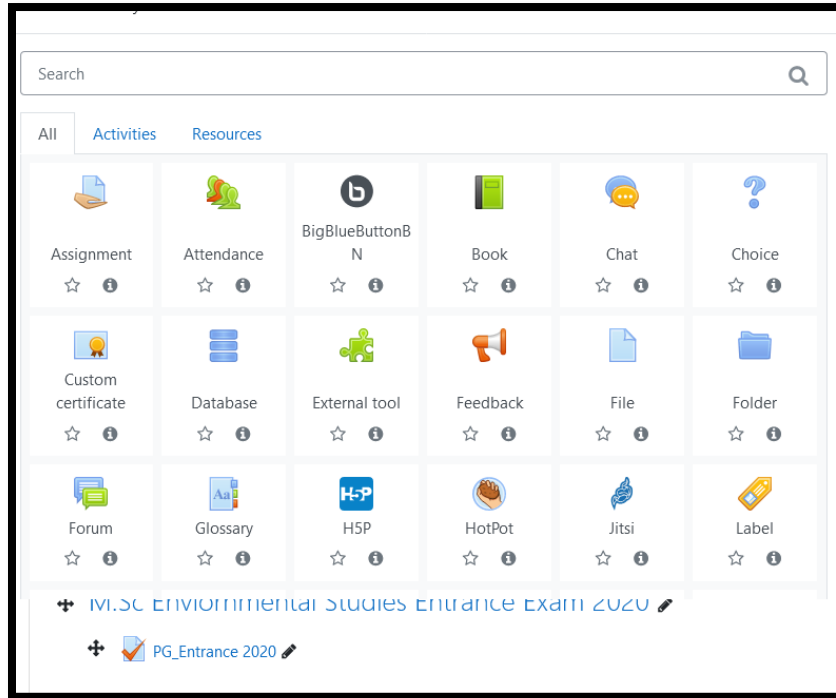

Online class integration with Bigbluebutton and Jitsy,

Integrative video with H5P,

Learning levels with OBE.

Autogenerated certificates after completion of audit courses & certificate courses.

## Structure of christijkmoodle.in

### Regular courses

In the regular courses, students are enrolled as class (batch). All the course contents will be available to students in a single page, which is easy and effective for them. Regular courses are categorized as Undergraduate (UG) and Postgraduate (PG) which is further divided to admission year.

## STATUS REPORT ON LEARNING MANAGEMENT SYSTEM

2017 APRIL TO 2021 APRIL

### Training – Career Guidance and Placements

The courses pertaining to placements, competitive exams (JRF/NET) are arranged in this category.

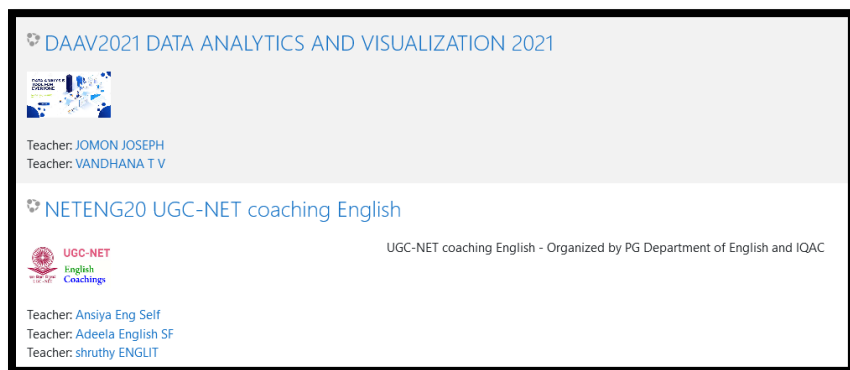

session, creation and distribution of study materials and systematic assessment were highly functional using Moodle

PG Department of English conducted training for entrance tests to Central Universities like EFLU, JNU, JMI and DU through the course 'Higher Studies in English'. Weekly mocktests and follow up were handled with the help of Moodle

The value-added certificate courses, offered by Department of Computer Science A) Microsoft Excel- MOS certification and B) Data Analytics and Visualization were conducted through moodle LMS.

The Civil Service Coaching was given for students by the Post Graduate Department of English in association with IQAC.

### Placement trainings

Moodle LMS was the effective platform for Placement trainings throughout these years. Mock tests were conducted for placements of leading firms like WIPRO, Infosys etc in the same format of the original tests.

Coaching for JRF/NET exams for three subjects were conducted through moodle LMS. A) Mathematics B) Zoology and C) English. The interactive

## Feedback on Moodle LMS

Date : 26/04/2021

Sometimes its very difficult to open the platform.  
And other wise its very useful and helpful in this  
time.

## Feedback from students

A survey was conducted among students to get the feedback. The survey indicated that some of the students are having problems with accessibility. They had good opinion on the assignments section as there is reminder facility associated with. The ICT team has decided to propose to management for an internal server to conduct the examinations.

Feedback on moodle LMS

Date: 26/04/2021

Moodle is a good platform that is very easy to access study materials. Sometimes I think there is some issue in the login section but now it's all clear.

On my reference Moodle LMS is suitable and excellent platform. But in my view online class through moodle is not as good. In aspect, we use google meet link through moodle for online classes. ~~So it is~~ So there is lack difference in it. My small experience with moodle ~~I must say that~~ it supports a range of media to present as links to learning materials, and to assess their learning. ~~It is~~ It performs very effectively and easy to have backup features and have convenient file management.

Alan

BCA

### Conclusion

The Learning Management System of Christ college is now full-fledged and is catering to the overall needs of students and teachers including online value-added certificate courses, mock tests for placements and competitive exams are conducted in the LMS. The system helps the institution in the accurate and even distribution of e-learning facilities

We need technology in every classroom and in every student and teacher's hand, because it is the pen and paper of our time, and it is the lens through which we experience much of our world.

— David Warlick —
