Feedback Analysis

The College has a very efficient mechanism to collect feedback from all the stakeholders—students, parents, alumni and employers annually. IQAC has prepared questionnaires for this in prescribed format. The student evaluation on teacher performance is done in three phases. In the first phase teacher themselves will collect feedback from students. In the second level a confidential evaluation is taken by the Principal on teacher performance and finally through the PTA. Apart from this students will be requested to give oral feedback about their experiences in the College during their send off meetings. The class teacher student interactive sessions is yet another opportunity for teachers to find out what the students feel about the classes and Institution. The Principal will also hold unofficial meetings with students to collect their impression on teacher performance. Alumni feedback will be informally collected on the day of departmental and common alumni meet days. The career guidance and placement cell will collect feedback about the student performance in various recruitment processes from the employers who will conduct placement drives at our College.

The feedback received from students will be analyzed by the respective teachers and will take corrective measures if necessary. The Principal will analyze the confidential responses collected by him and will give a summary of the same to the respective teacher. He will also discuss the matter with the Head of the Department and request to take necessary remedial steps. As an overall impression more than eighty percentage of students have given the response that the institution has maintained very harmonious atmosphere with pleasant academic environment and with lot of platforms for co curricular, extracurricular, cultural and sports programmes.

BEST PRACTICE -2

ECOFRIENDLY BIODIVERSITY CAMPUS

The college campus is situated in a high elevated area in Irinjalakuda namely the Mangadi hills. The campus was maintained as a biodiversity rich area having large number of plant species naturalized in the area. The steps are taken to make the campus green and protecting a large number of rare and threatened plants in the campus. The fauna is also protected as we safeguard the flora in the campus. The availability of opportunities to practice the natural environment was considered as a pointer of the potential for increased ecological awareness.

Wastes, the different types of pollution and the loss of biodiversity are some of the issues related to the environmental deterioration. The environmental consciousness programs are arranged for maintaining an ecofriendly biodiversity campus which gives environmental awareness to the students and local people. Over and above these, we are maintaining a small zoo also.

- The Bhoomithrasena imparts knowledge of conservation of nature to the younger generation by organizing nature camps, seminars, talks, discussions and exhibitions.
- Bhoomithrasena organizes tours to eco-fragile areas and does the conservation of fruit bearing plants in the campus.
- Biodiversity Club and Botany Department maintains 20 cents, as “*Santhistal*” were the rare endangered and threatened plants are planted and maintained.
- Under the One Goal One Tree Programme 2014 the students and teachers of Biodiversity Club, Christ College planted 480 saplings of Mango native varieties of Kerala in and around the college.
- Planting rare and threatened plants by the VIP’s, students and staff of the college.
- Periodical visit of the faculty of Botany department and collection and documentation of plants noted in the area. The faculty of Zoology documented the fauna periodically.
- Small Zoo with a number of animals is maintained in the campus under strict rules and conditions of the Environment and Forest Department of the state.
- Collection of medicinal plants, fruit bearing plants, rare plants from the nearby nurseries
- Plantations of teak, bamboo and Mahagony were maintained in the campus which makes the campus green and that maintain the carbon neutrality.
- Star vanam (Nakshathravanam) is maintained -a joint venture of Bhoomithrasena and Botany Department was inaugurated on 11-11-2009 by Dr. Induchoodan (Divisional Forest Officer) and the plants are planted in the campus. The plants are maintained also as exhibits in the college garden in pots.
- Wide spread planting and maintenance of flowering plants in the campus.
- One acre of the campus called the *Green valley* is maintained by NSS volunteers that give the appearance of a small forest area.
- Vegetable garden is maintained by N.S.S.
- Poly-house farming started under the auspices of Biodiversity Club and NSS units of our college.
- Full time gardener for watering and greening the campus.

- The NSS units of our college are preparing ecofriendly paper bags and pens for the seminars conducted by our college.
