| 1.      | Expand LCD  |   |  |                   |
|         | a) Liquid Computer  | Display   | b) Liquid Disk   |                   |
|         | c) Liquid Crystal Digital   |   | d) Liquid Crystal Display Computer                       |                   |
| 2.      | A software tool for exploring the world wide web and internet is called |   |  |                   |
|         | a) network  | b) browser  | c) search engine   | d) URL            |
| 3.      | The main memory of supercomputer is                                     |   |  |                   |
|         | a)256 megabytes   | b) 255 megabytes                                  | c) 246 megabytes   | d) 250 megabytes  |
| 4.      | The modem is technically called the                                     |   |  |                   |
|         | a) Modem-Demodem  |   | b) Modulator-Demodulator                                 |                   |
|         | c) Modern-Demodulator   |   | d) Modulate-Demodulate                                   |                   |
| 5.      | 1 Kilobyte (KB) =   |   |  |                   |
|         | a) 1024 bytes   | b)1024 gigabytes                                  | c) 1024 megabytes  | d)1024 bits       |
| 6.      | The syntax used for the addition of two numbers is                      |   |  |                   |
|         | a) =SUM (number 1, number 2)  |   | b) =ADD (number1, number 2)                              |                   |
|         | c) = $SUM(1, 2)$  |   | d) =ADD (1 <sup>st</sup> number, 2 <sup>nd</sup> number) |                   |
| 7.      | The function key used for starting slide show in MS Powerpoint is       |   |  |                   |
|         | a) F2   | b) F5   | c) F3  | d) F6             |
| 8.      | The keyboard shortcut for paste command is                              |   |  |                   |
|         | a) Ctrl+C   | b) Ctrl+V   | c) Ctrl+X  | d) Ctrl+P         |
| 9.      | Solver is an add-in-function in   |   |  |                   |
|         | a) MS Excel   | b) MS Powerpoint                                  | c) MS Word   | d) MS Access      |

10. The worksheet function used in regression tool for the estimation of non-linear regression is

11. The first national commercial online service to offer internet access to its subscribers is:

c) NON-LINEST

c) Delphi

d) NON-LOGEST

d) BITNET

b) LOGEST

b) Archie

a) LINEST

a) ARPANET

- 12. CD-ROM stands for
  - a) Compactable Read Only Memory
- b) Compact Data Read Only Memory
- c) Compactable Disk Read Only Memory
- d) Compact Disk Read Only Memory

 $(12 \times \frac{1}{2} = 6 \text{ Marks})$ 

Section B (Very Short Answer Type Questions)

Answer any *ten* questions not exceeding one paragraph.

- 13. Define spreadsheet.
- 14. Distinguish between RAM and ROM.
- 15. Define booting.
- 16. What do you mean by autofill of data?
- 17. Write short note on MS Excel.
- 18. Bring out the steps involved in insertion of rows and columns to the excel worksheet.
- 19. What is syntax?
- 20. Define world wide web.
- 21. Define social networking.
- 22. Explain briefly the benefits of online shopping.
- 23. Briefly explain the steps in creating a blank document in MS Word.
- 24. Write short note on Formulas and Functions.

 $(10 \times 2 = 20 \text{ Marks})$ 

## **Section C** (Short Answer Type Questions)

Answer any six questions not exceeding one page.

- 25. Write a note on the major features of a computer.
- 26. What are the major input devices connected to a computer?
- 27. Define e-commerce. Which are the different types of e-commerce?
- 28. What are the basic steps to draw a chart in Excel program?
- 29. Bring out the difference between internet and world wide web.
- 30. Explain the manipulations that are done while creating a new document.
- 31. What are the steps to insert graphs and pictures in MS Powerpoint?
- 32. Distinguish between Primary Memory and Secondary Memory.

 $(6 \times 5 = 30 \text{ Marks})$ 

## Section D (Essay Type Questions)

Answer any two questions not exceeding three pages.

- 33. What is an operating system? Explain its major types and functions.
- 34. Explain the basic components of a computer.
- 35. Explain the various steps and procedures for creating powerpoint slides.
- 36. What is mail merge? Explain the methods involved in mail merge.

 $(2 \times 12 = 24 \text{ Marks})$
