CHRIST OPENCOURSEWARE

INTRODUCTION

OpenCourseWare (OCW)– course lessons prepared by universities and colleges and delivered free via internet has got wide acceptance during this pandemic period. Based on the principles of OCW consortium, Christ College decided to create and disseminate the quality course contents under the name Christ OpenCourseWare (Christ OCW). Internal Quality Assurance Cell (IQAC) initiated the activities of building the Christ OCW in 2019 March.
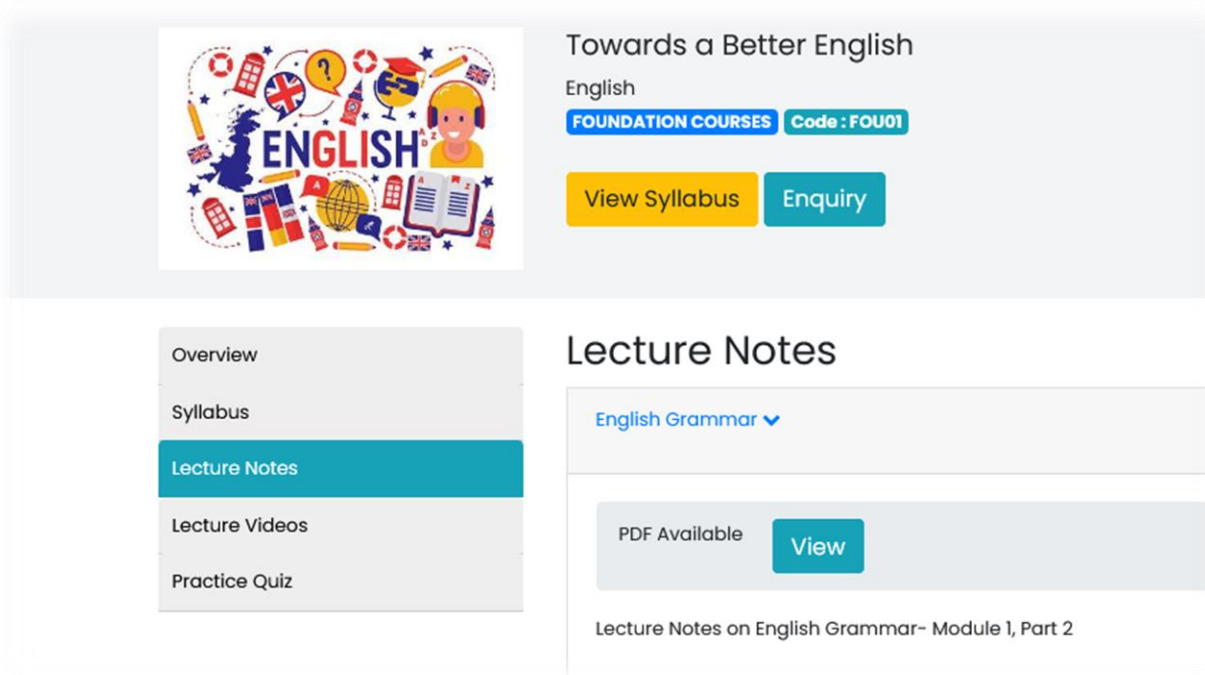

STRUCTURE OF CHRIST OCW
COURSE CONTENTS

Guidelines issued by University Grants Commission (UGC) is the basis of the structure of Christ OCW. The course contents are offered with the license of Creative Commons. Most of the courses are offered as MOOCs (Massive Open Online Courses) with four quadrants namely a) Video tutorials b) Notes or handouts c) Practice questions and d) Interaction with faculty. Christ College has developed its own guidelines for Christ OpenCourseWare.
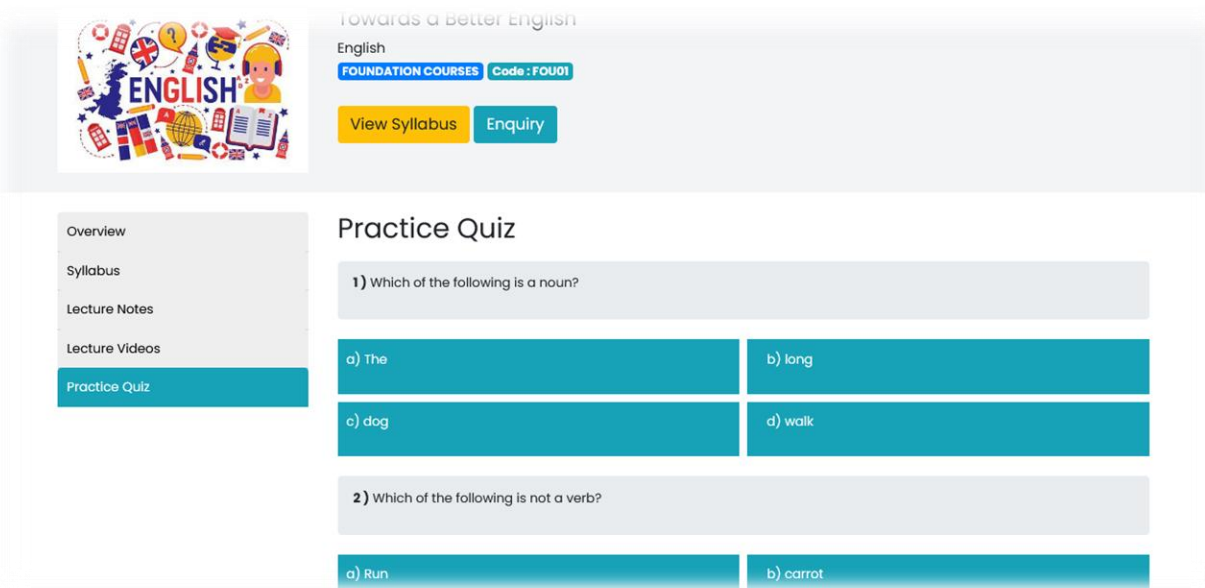

a.) Video tutorials – The high-quality video tutorials are created in the dedicated audio video laboratory under the supervision of Christ OCW coordinator. The videos are edited with proper titles and published in Christ OpenCourseWare Youtube channel. College has appointed professional videographer/editor for the purpose of creating quality video lectures. To help the slow learners, some of the contents are prepared in vernacular language and the tutorials are uploaded in the beta channel of Christ OpenCourseWare. The video lab consists of green screen, teleprompter, whiteboard and lightboard.

b.) Notes of handouts – Students are provided with reading materials in the form of handouts in pdf format. Students can download and use them for free.

c.) Practice questions – Practice questions are created as MCQs (Multiple Choice Questions) for the students to check their learning levels.

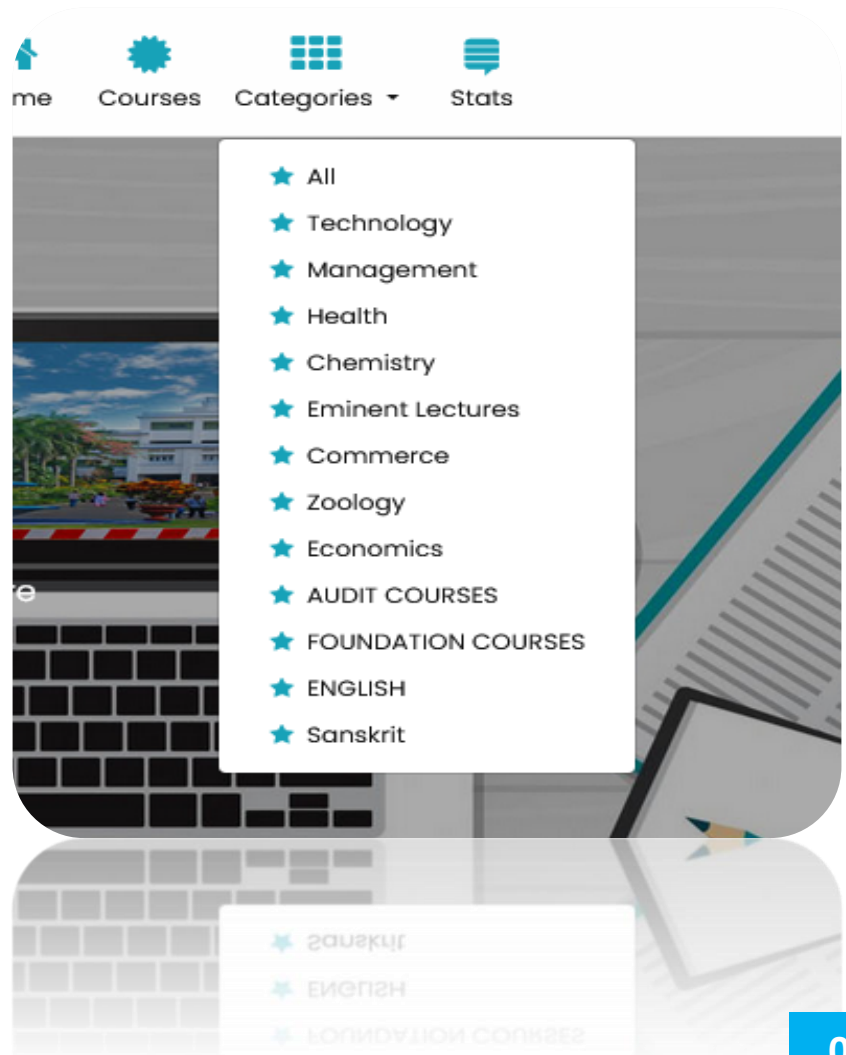

d.) Interaction – Students can ask their doubts or get assistance from the faculty if needed using the feedback form.

Examinations and Certificates

Any student who wishes to appear for the examination should contact the admin through the feedback form to appear for an examination. Students outside from Christ College should remit the required fees and if successfully completed will earn a certificate. The examinations are conducted in moodle LMS of Christ college christijkmoodle.in.

Course Organization

The courses are organized in to Categories depending on the subjects. A new visitor can search the course contents easily according to his taste. Presently courses are arranged in 10 categories.

Supported by –Autonomy Grant from University Grants Commission

The initial financial requirements were met with the funding from University Grants Commissions 'Fund for Autonomous Colleges'. Or corporate supporters are now supporting the project whose web links are given in the home page of Christ Open Courseware.
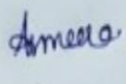

Feedback

After two years of its inception ChristOpenCourseWare has become the favorite to not only the students of Christ College but also to students from other colleges of University of Calicut. The audit courses of University of Calicut for the UG Programmes are offered through Christ OCW.

Date : 26/04/2021

The Audit course Examination and the foundation course Examination were conducted perfectly through Christ open courseware. Proper instructions about the examinations were provided and it helped to attend the examination without any stress. After completing the examinations the certificates were available properly through the site without any delay.

Feedback on christ open Courseware

Date: 26/4/2021

It is a good opportunity for us to attend the Audit and fundamental courses along with the main course. The exams through online moodle is ok but there is some problems like network problems or some times moodle site will not work well. There is no problem when we attend exam early.

Arun.T.M

BSc Mathematics
2nd semester.

Feedback on ChristOpenCourseWare

Date: 26-4-21

I found the audit and foundation course informative and it helped me in knowing new things. Apart from the main core course, these additional courses gave general knowledge. The practice questions and notes were really informative. And also looking forward to many new courses and informations.

Name: Aarya S. Kollara

Class: BSc. Physics Aided
First Year, 2nd semester.

Role of teachers

Hard work of the teachers is the backbone of Christ OCW. On recognition of their sincere efforts College offered Appreciation certificates to teachers in March 2021. Silver certificates are issued to teachers who developed opencourseware of more than 9 syllabus hours and Golden certificates for more than 36 hours.

Conclusion

After a struggle of two years, Christ OpenCourseWare has now taken out its wings. The feedback from students indicates a bright future. Next academic year College will be planning for more courses to be converted to opencourseware in Christ OCW.

Acknowledgement

We sincerely thank University Grants commission, our corporate supporters (South Indian Bank Ltd, KLF Nirmal, Nexus Technologies and Art Lab), Teachers, Technical staff and dearest Students for the constant support rendered to Christ CopenCourseWare.
