

MIYAWAKY FOREST

- It is maintained by Department of Environmental

Science and is funded by the Social Forestry Department, Government of Kerala. This urban jungle helps to reduce air pollution, noise pollution to maintain the biodiversity and aesthetics. It covers an area of five cents of land, near the Men's Hostel of the college. There are almost 150 plants, belonging to 56 different species. This modern forest is the heart of Christ college which pumps the the life blood for christies. It has grown now into a real thick forest.
