a. SAFETY AND SECURITY

Our college has more than 75 percentages of female out of the total strength of the students. So, we have to pay special attention for the safety of them. We have Anti-Sexual Harassment Committee and Students Grievance Redressal Cell, College Discipline Committee, and all Committes have the representative of female members and complaint and suggestion boxes are maintained and regularly checked. Quick actions are taken to all issues concerning the safety and security of the college. We have 24-hour security personnel at the gate to avoid tress pass and have CCTV in important points. Women's Development Cell were very cautious to arrange gender sensitive programmes like conducting discussions, workshops, invited talks on gender awareness and gynecological talks, poster competitions, exhibitions, practical class on self-defense, and also provides counseling and assistance for submitting complaints on gender discrimination and sexual harassments to needy female students and female staff. Besides the Women's Development Cell, the social work department, *Tavanish*, the student's voluntary organisation, etc was very active in conducting gender sensitive programmes.

b. COUNSELING

Being mentally healthy has many benefits and benefits are realized through the process of mental health counseling. Counseling in our college is mainly focuses on the adolescents with behavioral and academic problems. Our Department of Psychology offers counseling for needed students from our college and also from other colleges. We have separate counseling room with good facilities and Department coordinator will assign the time for sessions. It is handled by expert teachers. Most of the students sought counseling due to depression, relationship failure, anxiety, family issues and obsessive-compulsive disorders. We do the necessary follow ups and in the case of some students who need more intense therapeutic or medicinal treatment refer to Psychologists. We pay special care to female students as they are hesitant to open up their personal matters. Information is recorded confidentially in formal record sheets.

c. COMMON ROOMS

Our college provides separate room and common room for female students for recreation and for taking rest while their health is not sound. For keeping hygiene, each room has separate washroom with sanitary napkin, vending machine, incinerator and a separate dressing room for changing dress. For physical education students we have a well-furnished fitness centre.

d. DAY CARE CENTRE

Most of our lady staffs have facilities for child sitting in their home, so our day care centre for young children is not working.
