## AIM:

Knowing the strength and weakness of each student in a class is a demanding task for class teachers. Academic background of students is different as they come from different schools and have undergone different curriculum in their qualifying examinations. Hence a general assessment test will be beneficial to know the academic level of each student. It was decided in the IQAC meeting to conduct a screening test for the first semester students.

## Method:

Online test was used to assess the knowledge and skills of students. All first-year students were enrolled in the moodle platform [christijkmoodle.in](http://christijkmoodle.in).

Three different tests were designed to check the proficiency of students in

- a) English (Grammar and Usage)
- b) Psychometric (Verbal, analytical& reasoning) and
- c) Core subject.

Total time for three tests: 01:00 Hour

**SCREENING TEST- FIRST SEMESTER UG-2022-23**

METHOD, RESULTS &amp; SUGGESTIONS

| Subject                                      | No of questions | Max Marks  |
|--|-----------------|------------|
| English (Grammar and Usage)                  | 30              | 30         |
| Psychometric (Verbal, analytical& reasoning) | 11              | 30         |
| Core subject.                                | 30-40           | 40         |
| <b>Total</b>                                 |                 | <b>100</b> |

The results were downloaded and an analysis was done using Microsoft excel. The marks of each test were converted to rank. The total marks of the students were also converted to rank. The students were grouped in to three classes (1/3rd in each group)

- a) A group (students with high marks)
- b) B group (students with medium marks) and
- c) C group (students with low marks).

Average marks of each course were also calculated. The results of each class were sent to corresponding class teachers.

**SCREENING TEST- FIRST SEMESTER UG-2022-23**

METHOD, RESULTS &amp; SUGGESTIONS

**Results:**

A total of 1218 students participated in the screening test

## Suggestions:

- ✚ During the assessment it is noted that some of the students are lacking on basic computer literacy. It is suggested that Computer Science department can organize a computer literacy programme for first semester students and teach them to create infographics and how to retrieve the information they find online.
- ✚ The low score on English test indicates they need adequate training in using vocabulary and phrases especially for the students of First Semester. Communicative English session can be organized by literature department which can improve Listening, Speaking, Reading and Writing skill. Taking a
- ✚ Psychometric test also helps a student to find out how a particular subject or career suits their personality. So, its easy for the Placement Cell to identify their jobs which suits them and can give proper training.
