

LANGUAGE

LAB-2

Organised by : Department of English, Christ College (Autonomous)
Venue : Computer Lab
Dates : 18th October 2022 & 22nd February 2023
Target Group : II Year B. A English students
Time : 9:30 am
No. of Participants : 45

REPORT

The language lab of Christ College is led by the Department of English (Aided) and the PG Department of English (SF). Classes are conducted in the RUSA lab twice an academic year. The software which the students have been equipped with offers them wide range of opportunities to work on the language skills at their own pace. The initial class introduces them with the software and its proceedings. The importance of enhancing the language competency is identified by the student and they start working on it. The final class checks the progress of the students and required feedback and follow up activities are provided.

The second year BA English students were given an initial class in the Computer Lab on 18th October 2022. The initial class was meant to refresh the Orell Software which they are already familiar with in the language lab which they had started to practice in the previous year. Further follow up activities were provided through the software, which the students could use it at their own space and pace. The final session of the academic year was convened on 22nd February 2023. The students were able to improve their competency level in building up the LSRW skills.
