5. Dr. Tom Cherian. *TC*

### Decisions:

The committee over viewed the ethics related matter of the research article published by Mr. rivile Chandran, Research scholar, Dept. of Geology & Env. Science. The findings of the committee is given below.

1. The research scholar had published a response to the research article in a peer-reviewed, open-access journal, the "Journal of Threatened Taxa". In the paper, he had professedly pointed out specific errors and breach of scientific ethics by the authors of the original article. This is very common in science, and the discipline, by its nature, flourishes only through such critiques and discussions. Moreover, as a person pursuing science, it is his duty to point out such mistakes and violation of

ethics. The Ethics committee finds no breach of ethics by Mr. Vivek Chandran A in this regard.

2. The research scholar had made a social media post detailing the publication of his response to the article. The committee examined the post in detail and found nothing derogatory in it. He has used decent, layperson's language in order to inform a larger audience regarding the publication. He has not targeted anyone personally and the post does not qualify as slander.

3. The research scholar has aired his views in his individual capacity and has not shown any institutional affiliation in his response to your article. As far as we know, there is no rule of the UGC or the University of Calicut that bars a research scholar from publishing such articles in their individual capacity. Hence, the name of his research guide and the institution where he works have been dragged into this matter unnecessarily.

In conclusion, the Ethics committee of Christ College (Autonomous), Irinjalankuda has found no violation of research ethics by the research scholar, Mr. Vivek Chandran.
