## Introduction

Christ College, Irinjalakuda and the IQAC had taken the initiative of implementing the mentoring of students. Students are categorized based on the streams of studies and also according to their academic performance. They are divided into 8 groups and each group consists of 8 students depending on the academic performance. Each group is assigned a teacher-mentor who would perform mentoring duties. A Mentoring Format with Guidelines is prepared by the IQAC to ensure uniformity.

### Objectives

- Cognitive enhancement
- Develops critical thinking and reasoning

## Mentoring activity

The Department of commerce organized Mentoring activity in which the Mentees will have personal time with their respective Mentors. The Mentors will have a track on their mentee's education, family related matters and issues, their extra-curricular activities and their psychological needs. The mentors spend at least 2 sitting with their mentees in each semester. Our Mentors used to spend more than 2 meetings and their proceedings are entered in their Mentoring Card.

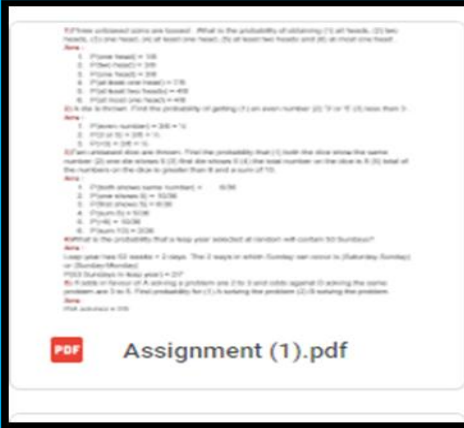

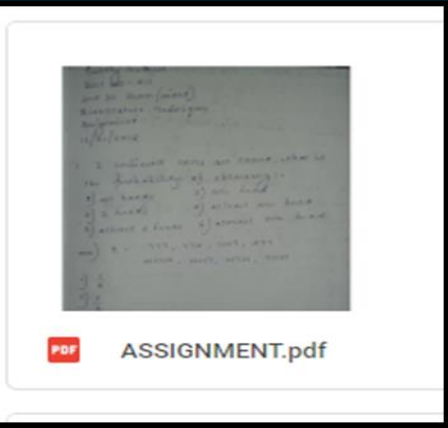

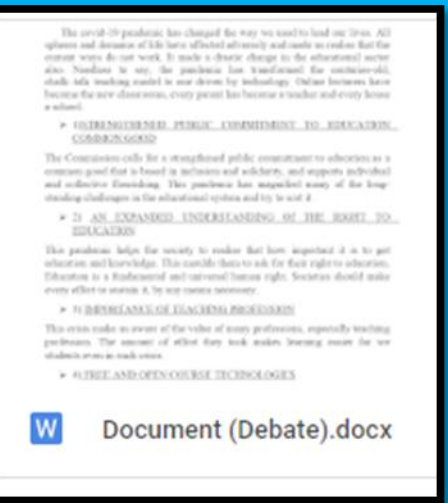

### Objectives:

- Develop and maintain mentor- mentee relationship
- Improve their academic performance by improving their various learning skills
- Narrow the gap between slow learners and fast learners
- Inculcate a culture of team work and team spirit
- Help them in preparing for exams
- Guide them in their project work

➤ B. Com Aided (2020-2023) Batch

**Activities Undertaken**

- Group study sessions
- Assessment of previous years question papers
- Debate.

<p><b>Evidence of Success</b></p>	<p>Though the system has only been implemented in the last few years, significant improvement in the teacher-student relationship can be seen. The system has been useful in identifying slow learners and advanced learners. Based on the requirement deduced through a careful examination of each Mentor's report, the College has organized several Remedial Classes in the identified topics/subjects for slow learners. With the implementation of the Mentoring Program, the institute intended to build up an environment of trust and cooperation, where students feel free to discuss their careers, learning goals and their difficulties. Similarly working closely with a small group of students has helped in identifying each individual's strengths and weaknesses as well as plan better behavioral interventions for the student group as a whole. Personal problems of the mentees are resolved at the mentor level only and hence there is dramatic fall in grievances of the students.</p>

PLG activity

Collecting Details of library Journals (22-09-2022)

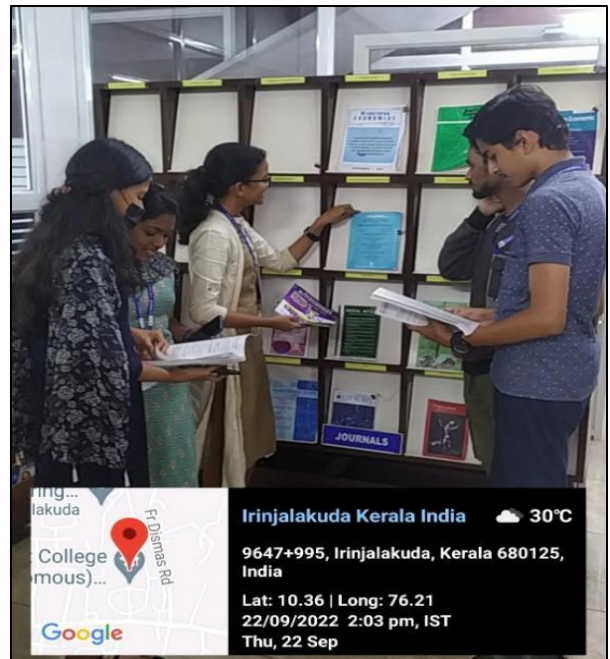

As a part of the PLG (peer learning group) activity, the students went to the library to gather information regarding the name and ISSN numbers of the commerce-related journals within an hour. The collected details were submitted as a list by each group.

Students took this opportunity to read and understand the various journals in the library.

The effort of the group leaders to divide the work appropriately among the members was commendable. The active participation from the students leads to the success of this activity.

For conducting various peer learning group activities, the whole class was divided into 8 groups with approximately 8 members each and a mentor for each group.

An activity was assigned to each of these groups

## PLG Activity

### News analysis

The activity conducted was to read and analyse the Business Line newspaper published under The Hindu. After the analysis of the contents of news, representatives from each group were asked to come forward and present the analysis in front of the whole class. The groups were given 15 to 20 minutes to discuss and interpret the information from the newspaper. The active participation of all members made this activity achieve its objectives. This activity can help students broaden their minds, improve communication skills, and information obtained will be useful for their future career development.
