Maximum: 36 Weightage

THIRD SEMESTER M.Sc. DEGREE EXAMINATION, DECEMBER 2015

(CUCSS)

Zoology - Fishery Biology - II

ZO 03 ET 09 - CAPTURE AND CULTURE FISHERIES

I. Answer all fourteen questions. Weightage 1:

- 1. Fin fishes.
- 2. Crabs.

Time: Three Hours

- 3. Mussels.
- 4. Aquarium fishes.
- 5. Bombay duck.
- 6. Reservoir fisheries.
- 7. Polyculture.
- 8. Cage farms
- 9. Live feeds
- 10. Fertilizers used in Aquaculture.
- 11. Indian major carps.
- 12. Hatcheries.
- 13. Acclimatization.
- 14. Trout and masheer.

 $(14 \times 1 = 14 \text{ weightage})$

II. Answer any seven questions. Weightage 2:

- 15. Control and treatment of bacterial disease of fishes.
- 16. Strategies of water-quality monitoring.
- 17. Pond design and construction.
- 18. Reproductive cycles of fishes.
- 19. Shrimps and Lobsters.

- 20. Feeding habits and artificial feeds.
- 21. Integrated fish farming.
- 22. Cephalopods.
- 23. Control of reproduction in Fishes.
- 24. Classification of Aquacultural practices.

 $(7 \times 2 = 14 \text{ weightage})$

III. Answer any two questions. Weightage 4:

- 25. Discuss the importance of culture of Oysters for food and commercially important pearls.
- 26. Give an account of major estuarine fisheries in India.
- 27. Discuss the role of hormone analogues in the induced breeding of commercially importantishes.
- 28. Explain major viral and fungal diseases and their control in fishes.

 $(2 \times 4 = 8 \text{ weightage})$
