INTRODUCTION TO LaTeX

LaTeX

About the course

Master the art of creating professional-quality documents using LaTeX, the powerful and flexible typesetting system. This course introduces participants to the fundamental concepts of LaTeX, including document structure, typesetting equations, creating tables, managing references, and designing presentations. Ideal for researchers, academics, and professionals, this hands-on course will equip you with the skills to produce polished technical papers, theses, reports, and more.

Commencement date

22 AUGUST 2023

:STATISTICS LAB

OFFERED BY
