

VALUE ADDED CERTIFICATE

COURSE INTRODUCTION TO

LaTeX

Report 2023-2024

This course was commenced on 22 August 2023. There were 10 students enrolled and 9 students completed the course. The course was of 30-hour duration. The students had received an idea on documentation.

Course Outcome

On completion of this Course, students will have acquired proficiency with LaTeX as well as many features of LaTeX which include:

1. Download and install LaTeX.
2. Typesetting of Mathematical, Scientific and general-purpose documents using LaTeX.
3. Use tabular and array environments within LaTeX.
4. Typesetting of journal articles, thesis, and slide presentations.

Evaluation

Participants are assessed by assignments on completion of training program.

Target Audience

M.Sc. Statistics students

INTRODUCTION TO LaTeX

LaTeX

About the course

Master the art of creating professional-quality documents using LaTeX, the powerful and flexible typesetting system. This course introduces participants to the fundamental concepts of LaTeX, including document structure, typesetting equations, creating tables, managing references, and designing presentations. Ideal for researchers, academics, and professionals, this hands-on course will equip you with the skills to produce polished technical papers, theses, reports, and more.
