## 1.WORLD ENVIRONMENTAL DAY CELEBRATIONS,

**07-06-2023**

The world environment day is celebrated every year on 5th June to raise global awareness to take positive environmental action to protect nature and the planet earth. It is a day that reminds everyone on the planet to get involved in environment friendly activities. People come together to pledge towards building a greener planet. Keeping this aim in view, P G Department of Botany celebrated world environmental day programs on 07-06-2023 and 08-06-2023. Celebrations was inaugurated on 07-06-2023 Fr. Dr. Jolly Andrews, Principal, Christ College (Autonomous), Irinjalakuda.

Inter departmental competitions for poster making and Scrap to Craft activities are conducted on 7th June in Botany Lab. Students belonging to various Departments of the College actively participated in both events. On 08-06-2023 an Exhibition in connection with Scrap to Craft arranged in botany lab and was inaugurated by PTA member Alice Teacher and the program felicitated by Fr Dr. Wilson Tharayil (Director of Self-financing Courses). Prizes for winners were distributed by Rev.Fr. Joy P. T. (Manager, Christ College, IJK). Vote of thanks was delivered by the student Botany Association Secretary Miss. Merin Thomas, II PG Botany.

Inauguration by Principal Fr. Dr. Jolly Andrews

Exhibition in connection with Scrap to Craft inaugurated by inaugurated by PTA member Alice Teacher

Fr Dr. Wilson Tharayil Felicitate the Scrap to Craft Exhibition

Prize Distribution by Manager, Rev. Fr. Joy P. T.

## Outcomes

1. Bridging local knowledge and expert Knowledge.
2. Provide an opportunity for participants to gain knowledge.
3. Develop Organizational Skills in Students

## 2.INTERCOLLEGE POWERPOINT COMPETITION IN CONNECTION WITH WORLD OZONE DAY

Ozone layer, otherwise known as ozone umbrella, is the most important protecting layer of earth restricting the entrance of harmful layers to the atmosphere. There are many protocols implemented for its protection and to create awareness among people.

The world Ozone Day 2023 was celebrated by the Biodiversity club and Kerala State Biodiversity Board in association with the Departments of Botany by organizing an intercollege power point competition on the topic “Fixing the Ozone layer and reducing Climate change” on 18th September 2023 at St. Chavara Seminar Hall, Christ College (Autonomous), Irinjalakuda. The competition was conducted as a part of the endowment award constituted by Prof (Dr.) Tessy Paul P., former HOD, Department of Botany and former coordinator, Biodiversity club. Nine contestants from six different colleges participated in the competition. The participants were asked to send the power point beforehand to a designated email address followed by the presentation. The time allotted for each presentation was 10 minutes followed by 3 minutes for discussion. The importance of Ozone layer, Ozone layer depletion in the polar region and implementation of Montreal Protocol were discussed through various seminars. The presentation was judged by faculty members of the college. 1st position was secured by Mr. Mahadev S from Kerala Varma College and 2nd position was acquired by Ms. Ananaiah M S from Calicut University. The cash awards and certificates were distributed by Manager and former Vice Principal Fr. Joy Peenikaparambil. Participation certificate were given to all the participants. 62 students attended the programme.

## **Outcomes**

1. Students became aware of the impacts of ozone layer
2. They became informed about different protocols related to control ozone depletion
3. They also got enlightened about its chemical process

### 3.DRAGONFLIES AND DAMSELFLIES – AN OVERLOOKED INDICATORS OF WETLAND HEALTH

The world Mangroove Conservation Day 2023 was celebrated by the Biodiversity club and Kerala State Biodiversity Board in association with the Department of Zoology by organizing a talk on Dragonflies and Damselflies – An overlooked indicators of wetland health on 25th July 2023 at Zoology lab, Department of Zoology, Christ College (Autonomous), Irinjalakuda. Mr. Vivek CHandran, research scholar, Department of Geology and Environment Science, Christ College, was the resource person. The program started at 3pm and came to conclusion by 4:30 pm with more than 40 participants attending the programme. The program enlightened the students with the various characteristics of Dragonflies and Damselflies, the difference between the two species. There were also made knowledgeable about the role of these flies in wetland ecosystem and its role as indicators. The various morphological peculiarities were also talked. The students were exposed to the research and field experience about dragonflies and damselflies. The programme was concluded by presenting a book as a token of love to Mr Vivek Chandran for sharing their experience.

### Outcomes

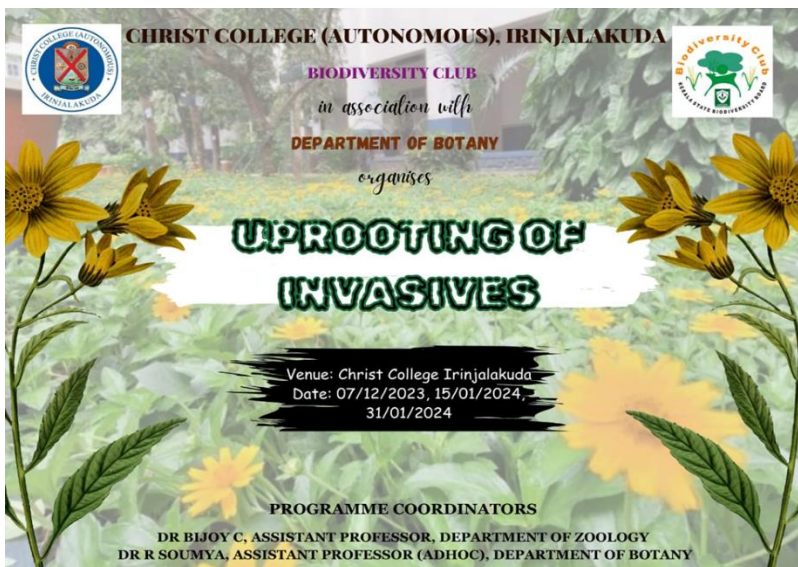

1. Students became aware of the various works of Dr. Salim Ali
2. They became informed about the various bird species

## 5. INVASIVE PLANTS MANAGEMENT PROGRAMME

The state of Kerala is blessed with rich flora and fauna. This includes indigenous and exotic species. These exotic species when they cause ecological and economic impact in the introduced habitat are termed as invasive species and the process is called biological invasion. Among the rich floral diversity, eighty-two plants have been reported as invasive throughout the state.

As a part of managing the invasive alien plants of the Campus of Christ College (Autonomous), Irinjalakuda, Biodiversity club and Department of Botany organised a programme to uproot alien invasive plants in the campus for three days – (7th December 2023, 15th January 2024 and 31st January 2024). The management programme was led by Dr. R Soumya, Dr. Bijoy C., Dr. Sr. Dilla Jose and Ms Sreelakshmi V. V. The programme was conducted from 3:00 pm to 4:00 pm on all the three days. As a part of the programme the students uprooted the invasive plant – *Sphagneticola trilobata* from various parts of the campus. The uprooted plants were properly decomposed to restrict further spread.

## **Outcomes**

1. Students became aware of the invasive alien plants in the campus
2. They became informed about the management methods of *Sphagneticola trilobata*
3. They also got enlightened about the various negative impacts of the species

## 6. UPROOTING OF INVASIVES

The state of Kerala is blessed with rich flora and fauna. This includes indigenous and exotic species. These exotic species when they cause ecological and economic impact in the introduced habitat are termed as invasive species and the process is called biological invasion. Among the rich floral diversity, eighty-two plants have been reported as invasive throughout the state.

Creating awareness at a grass root level is a crucial part of managing invasive alien plants. This plays a very important role in further introductions of these species. Towards this, an awareness programme was conducted to the cleaning staff of Christ College (Autonomous), Irinjalakuda by the Department of Botany in association with Biodiversity club on 23rd March 2024. They were made aware of the various invasive alien plants in the campus and the various negative impacts of these species. They were also given knowledge about the management practices which can be implemented to check the spread of the plants. The management programme was led by Dr. R Soumya, Dr. Bijoy C., and Ms Sreelakshmi V. V. The awareness talk was given by Ms. Poornima P P, student coordinator, Biodiversity club. The programme was conducted in the forenoon session. As a part of the programme, the staff were also made aware of the various invasive plants infested areas in the campus by direct visit to those areas. They also got a on field experience about the growing nature of the plants.

### Outcomes

1. The cleaning staff became aware of the various invasive alien plants in the campus
2. They became mindful about the different management programmes to be conducted to manage them

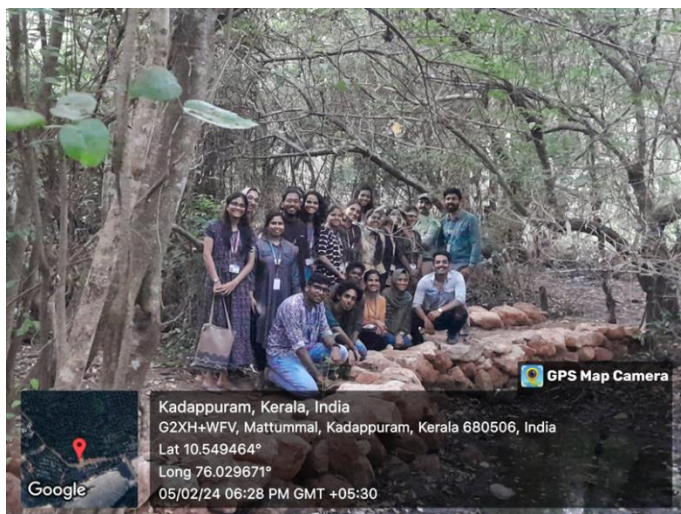

## 7.A JOURNEY TO THE MANGROVES

Wetlands are one of the most important ecosystems and play a very important role in maintaining the biodiversity. As a part of celebrating World Wetland Day, Biodiversity club organized a visit to the mangrove forest at Chetuva and Naalumanikaatu. The programme was coordinated by Dr. Bijoy C., Dr. R. Soumya and Ms. Sreelakshmi V. V. Dr. Jain Therattil, Assistant Professor, Department of Zoology, St. Aloysius College, Elthuruth interacted with students and they were provided with on field experience about mangroves. The students became aware of the various adaptations of mangroves, various associates of mangroves (floral and faunal associates). He also created awareness about the importance of Mangrove ecosystem and the various threats leading to the destruction of the mangroves. The students were introduced to two species of Mangroves – Rhizophora and Aevicinia. They also got an opportunity to see vivipary in natural ecosystem.

1. Students became aware of the importance of wetland ecosystem
2. They became informed about the various mangrove adaptations

## 8.INSIGHT CAMP

Christ college irinjalakkuda ( Autonomous) national service scheme ( unit 20&49) conducted insight international 3 day residential camp for visually challenged students. The camp was inaugurated by ward member Jaison parekkadan . The workshop started a session to introduced useful applications for them .Reading without seeing ( session ) handle ceo Haron kareem. The camp included some sessions, cultural programs etc.Onam meal was prepared for them. The camp concluded after the feedback session. The program was successfully conducted under the leadership of Prof. Shinto V.P, Prof.Jincy S.R, Prof.Hasmina,Prof. Anson and Lismerin.

## 9.RAILWAY STATION CLEANING

On 1st October 2023, volunteers of National Service Scheme ( units 20&49) of Christ College ( Autonomous) Irinjalakuda involved in cleaning the railway station as part of Swachhata hi seva at kalletumkara railway station. Volunteers cleaned by cutting grass and painting the station.

## 10. SWACHH BHARAT ABHIYAN:

30<sup>th</sup> September, 2023

The NCC unit of Christ College Irinjalakuda organised a cleanliness drive on 30 September, 2023 as a prelude to Gandhi Jayanti and nationwide Swatch Bharat Diwas. All the cadets took part in it, cleaning the campus and its surroundings promoting a call of action for a Clean India. The drive was conducted under the mentorship of ANO, Lt Dr Franco T Francis and was headed by senior cadet, CSUO Ashlin K Asok. The program envisioned to focus on building a clean and green India through the hands of young generation to contribute to a healthy and plastic free nation.

## 11. WORLD ENVIRONMENT DAY:

5<sup>th</sup> June 2023

On 5th June 2023, World environment day was celebrated by Christ college NCC. The event fostered a sense of awareness about environmental issues and promote sustainable practices among the cadets. We started our programme by 9:15 am. The event commenced with an inspiring message by our respected principal Dr. Fr. Jolly Andrews CMI, who emphasized the urgency of adopting sustainable practices and the role of educational institutions in shaping a greener future. To commemorate environmental day a tree planting initiative was

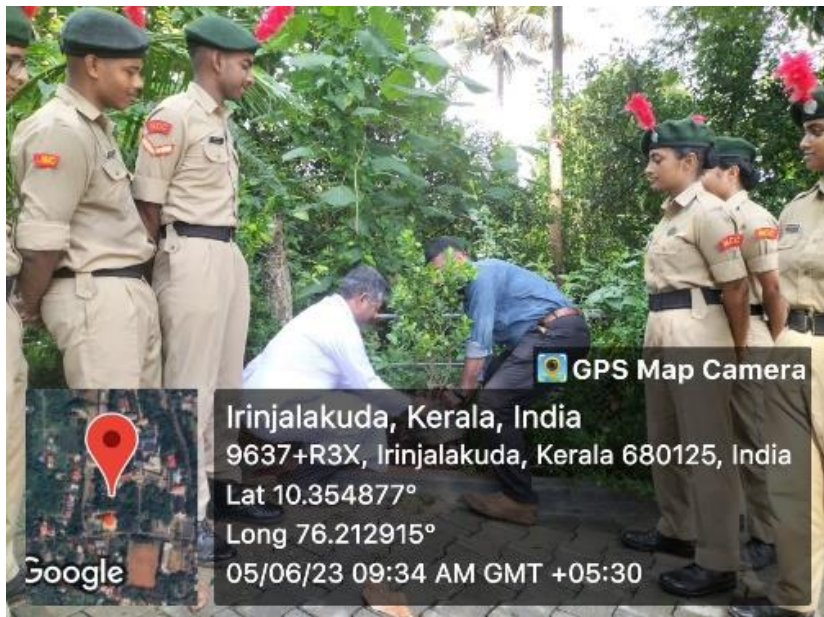

organised. The place in a area in the NCC appropriate soil sufficient space for grow and thrive. planted by our ANO Lt. Dr. Franco by the cadets. The day saw active from 64 cadets of LCPL Ashlin K program ended at environment day resounding fostering a spirit of consciousness and

event took designated office with conditions and the trees to The trees were principal, Our T Francis and environment participation under guidance Asok. The 11:00 a.m. the was a success environmental inspiring the

cadets to become change agents in their community

## 12.TALK ON LOCAL ACTION PLAN ON CLIMATE CHANGE

As part of World Environment Day Celebration an invited talk was organized by Bhoomithrasena and Enviroclub in association with Dept. of Geology & Environmental Science on 05/06/2023. Dr. S. Sreekumar, Former Director, Integrated Rural Technology Centre, Palakkad and Advisory member, Kerala Institute for Local Administration was the resource person for the programme and he delivered a talk on Local action plan on Climate change. This programme was organized to create awareness and to sensitize the teaching and student community so that they can propagate and inculcate the scientific solutions to mitigate environmental degradation. This may ensure a better world for the generations to come.
